Overview

While inflation, cost-of-living, staffing issues and student expectations continue to grow—digital transformation underpins future growth for higher education providers. With the next generation of digital natives entering higher education, students now expect their education provider to deliver:

- A state-of-the-art digital experience
- Self-service capabilities and efficiencies
- Streamlined support for student wellbeing

Automating the academic manual processes not only reduces time and cost, but it enables your educational institution to streamline

enrolments, simplify bookings, support overall retention and make the most of your resources.

Student Management is the only SaaS solution built specifically for higher education—available anytime, anywhere, on any device.

Key benefits

Personalised & engaging dashboards

An individual experience for every student from application, enrolment, progression and graduation.

Self-service capabilities

Equip students with the power to manage enrolment, class allocation, their personal details and fees.

Financial sustainability

Through seamless integration with your organisation's systems, unlock real-time oversight of your financial data for financial resilience and future-proofing.

Business process automation

Enable cost-reducing automation and eliminate manual and duplicated tasks to empower your staff to focus on student wellbeing.

User-driven R&D roadmaps

Collaboration with our users enables us to deliver deep functionality to the higher education sector with every upgrade and new release.

Real-time data & reporting

Empower your organisation with real-time dashboards and complete oversight to inform business decisions.

Secure & scalable

A true SaaS solution that is defence-level secure and scalable for future growth. Trusted by top UK authorities and education providers, our stringent cyber security safeguards data and protects your systems.

Always up-to-date for your business

Your organisation will be on the cutting edge of innovation with continual and automatic upgrades all covered by one annual fee.

Our mission

We solve the complex to simplify life for our community.

With over 36 years of experience in higher education, TechnologyOne harnesses industry expertise, the latest technology and user-centred design to present an unparalleled student and staff experience.

As an innovation-led company, we have pioneered SaaS for higher education, empowering our community with mission-critical solutions to transform institutions.

Over 1.5 million students globally are supported by TechnologyOne solutions.

Future-proof your institution with a true SaaS solution

Reinvent your system in a way no legacy software can—Software as a Service (SaaS) leverages the latest technology to deliver speed, security and scalability for your community.

SaaS delivers a mission-critical solution that empowers your organisation to provide compelling digital experiences—anywhere, anytime, on any device.

Only through the power of SaaS can your organisation embrace cutting-edge simplicity that offers a single source of truth and ensures your systems are guarded with defence-level security.

With continual upgrades, including two yearly major releases and weekly patches, empower your community with a best-in-class solution in an ever-changing environment.

Enhance the student experience

Attract the next generation of digital natives with seamless and state-of-the-art digital experiences.

Through a personalised and intuitive dashboard, manage the entire student lifecycle—including application, enrolment, progression and graduation.

Support student wellbeing by identifying at-risk engagement, unsatisfactory academic progression, and streamlining operations to enable easy access to services to help drive overall retention.

Deliver a compelling digital experience to your community, with self-service capabilities that empower your students and staff.

The highest level of cyber security

Secure your digital campus and reputation against threats with stringent protection across your systems.

Through the power of SaaS, continuous and automatic upgrades ensure your digital campus has the latest protection against emerging threats.

TechnologyOne is an industry-leader in cyber security, with the following security compliance certificates:

No-code configuration

Tailor our solution for your specific needs with no programming or coding required.

Discover deep functionality for your specific situation through an application that adapts to suit your unique needs. Student Management is designed to seamlessly

integrate with your systems to deliver an interconnected and unparalleled user experience.

Unleash streamlined functionality and cutting-edge efficiency for your organisation with faster time to value.

Real-time dashboards

Higher education institutions must make strategic business decisions to future-proof and give themselves a competitive edge.

Thrive in the face of challenges with dashboards that integrate and streamline real-time data to inform future spending and strategic decision-making.

Empower your organisation by improving efficiencies and eliminating manual and duplicated processes, reducing costs and empowering your staff to focus on your community.

"Right from the beginning of the project it was always our ambition to work together with our partner as one team, with one common goal, and I think we've achieved that. There are some really well-developed business relationships and in fact friendships now across university staff and TechnologyOne."
