Simplify the complex

Changing expectations, global competition and an increased focus on the staff and student experience are driving higher education and vocational institutions to replace their ageing legacy systems.

To support this business transformation, it's critical to have the right Enterprise Resource Planning (ERP) capabilities in place.

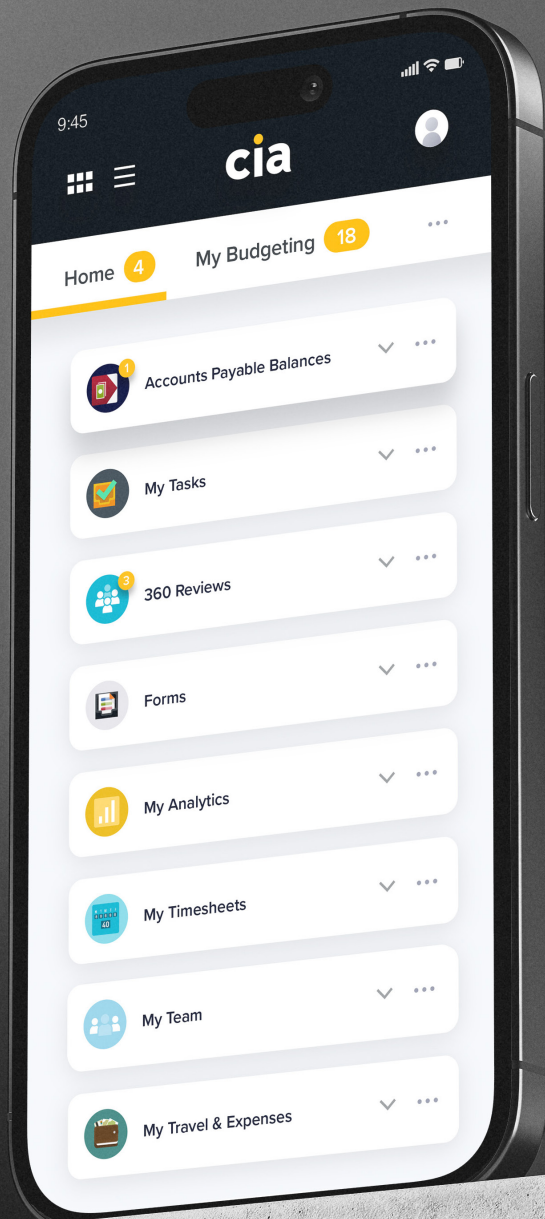

Adapt to the changing landscape

TechnologyOne's OneEducation SaaS ERP solution underpins the operational and strategic requirements of Higher Education institutions with a single, integrated enterprise solution.

Leveraging more than 30 years' experience working with leading education providers across the United Kingdom, Australia, and New Zealand, TechnologyOne is best placed

to help institutions adapt to the changing landscape and reduce the administrative burden.

Our global SaaS ERP solution reduces implementation time, cost and risk, and introduces essential anywhere, anytime access to staff and students.

Experience the OneEducation advantage

Manage your institution's critical information with confidence, so you can focus on driving student success.

A solution built for students and educators

A proven practice solution that's specifically designed for education to reduce implementation time, cost and risk.

Intuitive, engaging software

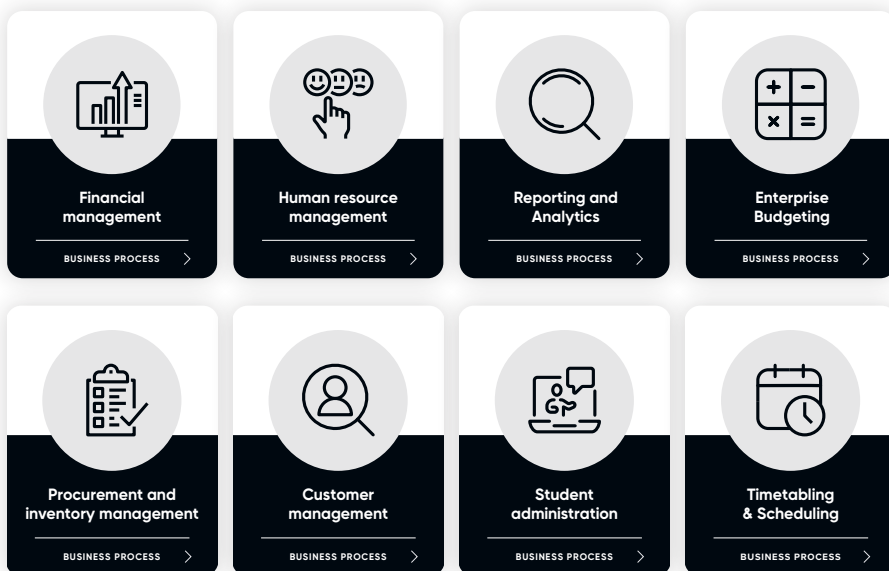

Provide intuitive self-service access for staff and students.

Secure, reliable and scalable

Guarantee the privacy of your data by partnering with Australia's most trusted SaaS ERP provider.

Take a closer look at OneEducation

Over 1.4 million students across 118 campuses are supported by TechnologyOne software.

Our global SaaS ERP solution supports the day-to-day operational, strategic and educational requirements of institutions in a single integrated solution.

Recruitment and engagement

Offers

Automate the generation and delivery of offers for faster, more efficient admission processing. Enhance engagement and interactions with prospects and applicants via an intuitive self-service portal.

Agents

Manage Agent to Student relationships including commission payments. Engage with agents via a dedicated online self-service portal to support more efficient application submission and timely responses to additional information requests.

Recruitment and admissions

Deliver automation and powerful business analytics to realise process efficiencies across recruitment and admissions activities including enquiry management and application workflows. Underpinned by a flexible curriculum model to support multi-channel processing for all levels (including undergraduate and post-graduate), application types (including UCAS and Direct) and applicants (including international students).

Student administration

Course structure and planning

Design, develop, approve and circulate academic programs and curriculum proposals.

Student administration

Centralise all contact data and interactions and immediately process student information, queries and payments. Capture all the necessary data required to support key processes including as HESA and SLC. Improve the student experience by delivering self-service access to students to maintain their details and manage their studies through transparent and real-time visibility of information.

Student engagement

Monitor student engagement, for a range of purposes (e.g. UKVI, student support and wellbeing) through configurable calculation and threshold rules. Pre-empt, mitigate and intervene in cases where students are deemed to fall below expected engagement levels. Configure threshold rules to trigger automated follow up actions such as communications, applying sanctions or creating support and well-being cases.

Progression and Completions

Intuitive progression and completion processing driven by powerful and configurable rules to determine recommended progression outcomes, completion status and award classifications for students.

Graduation

Facilitate graduations with automated allocation of students to graduation ceremonies and student self-service to confirm attendance, capture phonetic pronunciation of names and request guest ticket allocation.

Compliance reporting

Manage all regulatory and government requirements and reporting including HESA, HESES, SLC, Unistats, Graduate Outcomes and UK Visa and Immigration compliance for international students.

Scholarships, prizes and rewards

Manage, administer and bestow rewards, prizes, scholarships, gifts and bursaries.

Student case management

Track support interactions with students to facilitate intervention and case management.

Integration

Enable flexible and seamless system interoperability using a range of methods including web services and ETL (Extract, Transform and Load) processing, ensuring all your systems such as timetabling, VLE and library services communicate effectively.

Financial management

General ledger

Track, analyse and report up-to-date financial information from across the organisation with a flexible, integrated multi-ledger and multi-chart of accounts.

Budgeting and forecasting

Deliver unified and integrated driver-based budgeting and forecasting that links to the strategic goals of your institution.

Expense management

Take control of spend, automate expense management and ensure greater policy compliance.

Asset accounting

From acquisition and depreciation to revaluation and disposal, accurately capture, track and report on the lifecycle costs and valuations of your fixed assets.

Project accounting

Manage accurate project budgets and billing throughout project lifecycles and easily review financial performance for any single project.

Procurement and inventory management

Contract and contractor management

Manage the full contract lifecycle and collaborate with suppliers while strengthening compliance and reducing risk. Keep supplier information and contracts accurate and produce detailed contract KPI and financial reports. Support for all types of contracts including materials, services and construction, both lump sum and schedule of rates.

Source to contract

Identify, evaluate and engage suppliers for all your institution's procurement needs with comprehensive RFx management tools for highly configurable approaches to market.

Procure to pay

Streamline the entire procure-to-pay process by automating requisitioning, authorise, purchasing, receiving and payment processing.

Inventory management

Accurately track and manage your inventory with automated order processing and replenishment and support for multi-location inventory management.

Human resources and payroll

Organisation management

Optimise workforce planning with visual tools and embedded analytics that provide actionable insights into your current workforce. Identify critical gaps and develop workforce strategies that align with and support your institution's strategic plan.

Employee lifecycle management

Manage the entire employee lifecycle from headcount and cost budgeting and approval through recruitment, onboarding, performance management, learning and succession.

Learning and training

Manage every aspect of your organisation's learning and development programs and easily tailor training plans to each employee's career development and succession plans.

Workforce management

Support a modern workforce and manage all aspects of employment including positions, time and attendance, leave and pay.

Payroll processing

Reduce the time and risk involved in payroll processing by automating the entire process with an integrated payroll solution that complies with all current legislated reporting requirements in the United Kingdom.

Syllabus Plus

Deliver continuous innovation to your institution

Syllabus Plus delivers world-leading academic timetabling and scheduling resources for higher and further education institutions.

From ensuring the right people are in the right place to efficient resource optimisation, our solution enables you to achieve institutional goals, while providing a world-class student experience.

Experience the latest evolution in academic timetabling

Syllabus Plus delivers the scheduling capabilities that you need to run your tertiary institution and ensure you are making the best use of your people, places and resources.

Our solution brings greater flexibility and improved efficiency to make timetabling a valuable strategic resource within your institution. Many of the everyday functions such as making adjustments to a timetable, ad-hoc booking of resources and student access to personalised timetables can be managed from anywhere, on any device, through an easy-to-use interface.

Eliminate complexity with powerful resource management

Make the processes which underpin effective resource utilisation in your institution faster and more efficient. With simplified booking of all resource types, you can ensure you are making full use of resources across your tertiary institution.

With powerful reporting and audit tools, actionable insights are at your fingertips 24/7. From space modelling to room utilisation analysis, Syllabus Plus enables you to make evidence-based decisions.

ONEEDUCATION

Solution enablers

Business analytics

Analyse operational and strategic information and present this in reports and dashboards using a range of visualisation tools such as charts, tables, word clouds, slicers, media and more.

Business process automation

Build best practice into your everyday processes. Automate simple tasks and sophisticated processes with customisable clocks, workflows and approvals.

Digital forms

Create, streamline and automate the collection of information from suppliers, students, employees and other stakeholders with integrated forms.

Interactions and correspondence

Create a 360-degree view of all student interactions. Simplify your communications with powerful interactions tools that links each correspondence to a student.

Digital branding

Standardise digital stationery across your business to produce recruitment letters and statements seamlessly.

Portals

Provide self-service capabilities for students, academics and staff to access real-time information from anywhere, at any time.

Consulting services

From implementation to transformation, get the consulting services and support you need to ensure continued success.

Work shoulder-to-shoulder with experienced consultants who are aligned to your industry and have instant access to the latest TechnologyOne software. Our consulting team has a proven implementation methodology and track record of project delivery, ensuring a seamless onboarding

experience in the lead up to 'go live'— so you can confidently take control of your solution.

Access ongoing consulting services to operate, maintain and optimise your solution. Our Application Managed Services (AMS) team will assign you with a dedicated Service Delivery Manager so you can keep pace with enhancements and leverage a best practice approach.

Support

Access self-help options, collaborate with others, find answers to questions and manage your support cases in our online Customer Community. Our global support

teams take a collaborative approach to ensure your success, engaging with you through multiple channels to ensure you receive an exceptional support experience.

Training and resources

Gain the knowledge to succeed and work more efficiently in your day-to-day role. Led by our expert consultants, our training courses will teach you new skills and helpful tips and

tricks. You can also access hundreds of online resources via the TechnologyOne University, so you can learn at your own pace.

THE TECHNOLOGYONE difference

Power of One

One vision. **One** vendor.

One code-line. **One** experience.

Making life simple is at the heart of what we do. We take complete responsibility for building, marketing, selling, implementing, supporting and running our enterprise solutions to guarantee your long-term success.

THE TECHNOLOGYONE difference

SaaS Platform

Security. Reliability. Accessibility.

We've built the world's most trusted SaaS ERP solution that's secure, reliable and efficient. Our multi-tenanted SaaS solution has deep layers of security and the highest level of certification at every layer.

THE TECHNOLOGYONE difference

Our people

Dedicated passionate individuals.

As the creators of our software, no one knows it like we do. When you partner with TechnologyOne you benefit from a direct relationship with us throughout every step of your journey - from implementation to transformation. Our trusted team of experts will partner with you to unlock the value of your technology investment and set your institution up for success.

About TechnologyOne

TechnologyOne is a global Software as a Service (SaaS) company. Founded in Australia, we have offices across six countries. Our enterprise SaaS solution transforms business and makes life simple for our community by providing powerful, deeply integrated enterprise software that is incredibly easy to use. Over 1,300 leading corporations, government departments and statutory authorities are powered by our software.

Our global SaaS solution provides deep functionality for the markets we serve, including local government and higher education in the UK. For these markets we invest significant funds each year in R&D. We also take complete responsibility to market, sell, implement, support and run our solutions for our customers, which reduce time, cost and risk.
