# Student Management

Running a university isn't easy, but managing your students should be

Introducing TechnologyOne's Student Management. A SaaS solution to manage the entire student lifecycle, from recruitment to graduation with a single platform.

While inflation, cost-of-living, staffing issues and student expectations continue to grow— digital transformation underpins future growth for higher education providers. With the next generation of digital natives entering higher education, students now expect their education provider to deliver:

- A state-of-the-art digital experience

- Self-service capabilities and efficiencies

- Streamlined support for student wellbeing

Automating the academic manual processes not only reduces time and cost, but it enables your educational institution to streamline enrolments, support overall retention and make the most of your resources.

"**From our staff to our students, the shift to TechnologyOne SaaS has given everyone at La Trobe University a richer experience and we now have the opportunity to innovate.**

LA TROBE
UNIVERSITY

We solve the complex to simplify life for our community

With more than 37 years' experience, TechnologyOne has pioneered Software as a Service (SaaS) for local government and higher education, empowering communities with mission-critical solutions.
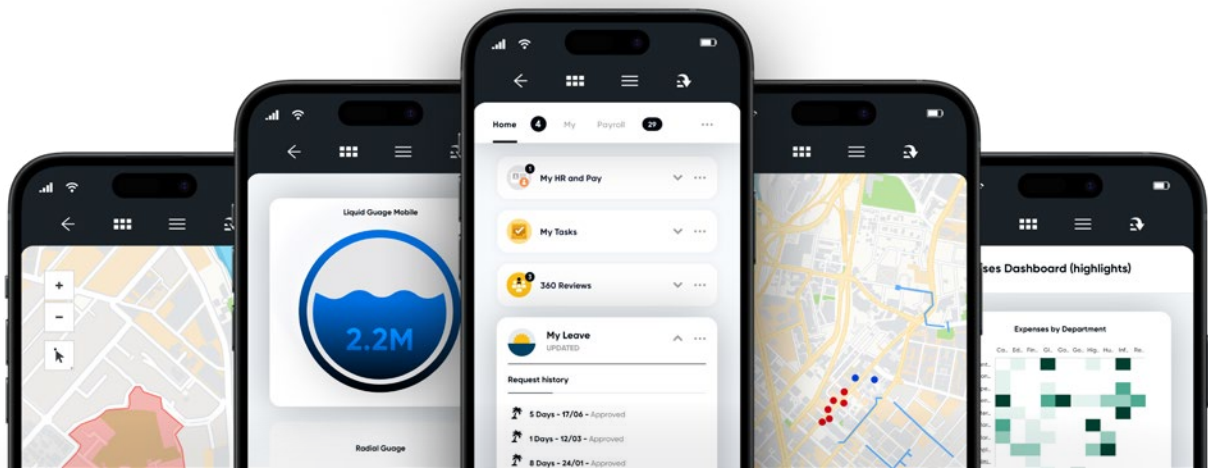

Our deep understanding and engagement with our key markets means we are able to deliver integrated, preconfigured solutions that provide proven practice, streamline implementation and reduce time, cost and risk for our customers.

We are the only company offering true global SaaS solutions, harnessing industry expertise, innovative technology and user-centred design to present unparalleled digital experiences.

Our global software enables our customers to embrace the digital revolution and an exciting new world of possibilities in a cloud-first, mobile-first world.

Over 1,300 large-scale companies, government departments and higher education institutions across the globe are supported by TechnologyOne solutions.

Future-proof your organisation with a **true SaaS** solution

Reinvent your system in a way no legacy software can — Software as a Service (SaaS) leverages the latest technology to deliver speed, security and scalability for your community.

SaaS delivers a mission-critical solution that empowers your organisation to provide compelling digital experiences — on any device, anywhere, at any time.

Only through the power of SaaS can your organisation embrace cutting-edge simplicity that offers a single source of truth and ensures your systems are guarded with defence-level security.

With continual upgrades, including two yearly major releases and weekly patches, empower your community with a best-in-class solution in an ever-changing environment.

Streamline management

Manage the complete student lifecycle from recruitment and enrolment through to graduation with one single application.

Improve the student experience

Increase student satisfaction with personalised support, self-service capabilities and easy access to real-time information on any device, anywhere, at any time.

Reduce costs and save time

Save valuable hours of productivity and free up your staff to better serve your community by automating and eliminating manual processes.

Make data-driven decisions

Gain full visibility of your critical information in one single view, allowing you to make faster, more informed decisions.

Integrated way of working

Seamless integration with your institution's systems unlocks real-time insights into your data.

Simplified compliance

Make adhering to government and regulatory compliance an easy task using standard workflows and reporting.

Always up-to-date

Your organisation will be at the forefront of innovation with continual and automatic upgrades and releases all covered by one annual fee.

Secure & scalable

The highest security and privacy measures and scalability for future growth. Trusted by top Australian and New Zealand governments, authorities, businesses and education providers, our stringent cyber security safeguards data and protects your systems.

Enhance the student academic experience

Attract the next generation of digital natives with seamless and state-of-the-art digital experiences.

Through a personalised and intuitive dashboard, manage the entire student lifecycle—including application, enrolment, progression and graduation.

Support student wellbeing by identifying at-risk behaviours, like missed classes and falling grades, and streamline operations to help drive overall retention.

Deliver a compelling digital experience to your community, with self-service capabilities that empower your students and staff with TechnologyOne's Student Management.

Student Management

Enrolment to Graduation

Make managing the entire student lifecycle easy by centralising all student data, automating workflows for enquiries and application assessment, and facilitating graduations and completions. Multi-channel support available for domestic, international, undergraduate and post-graduate students.

Reporting and Analytics

Easily track and monitor student performance, examinations and progress with powerful integrated dashboards, providing full visibility of your critical information.

Student Case Management

Improve student success and deliver tailored support by tracking student interactions and conducting thorough analysis of academic performance and progress, enabling effective intervention and streamlined case management processes.

Course Management

Design, develop, approve and circulate academic programs and curriculum proposals.

Personalised Dashboards

Equip students with the power to manage enrolment, class allocation, personal details and fees with self-service portals and engaging dashboards.

Communication Tools

Better connect your students, academics and staff with enhanced communication tools to access real-time information from on any device, anywhere, at any time.

The highest level of cyber security

Secure your digital environment and reputation against threats with stringent protection across your systems.

Through the power of SaaS, continuous and automatic upgrades ensure your organisation has the latest protection against emerging threats.
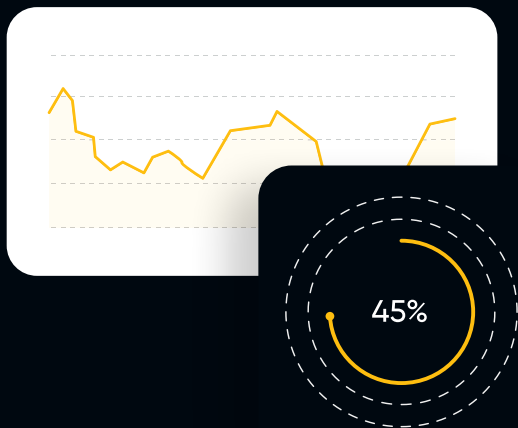

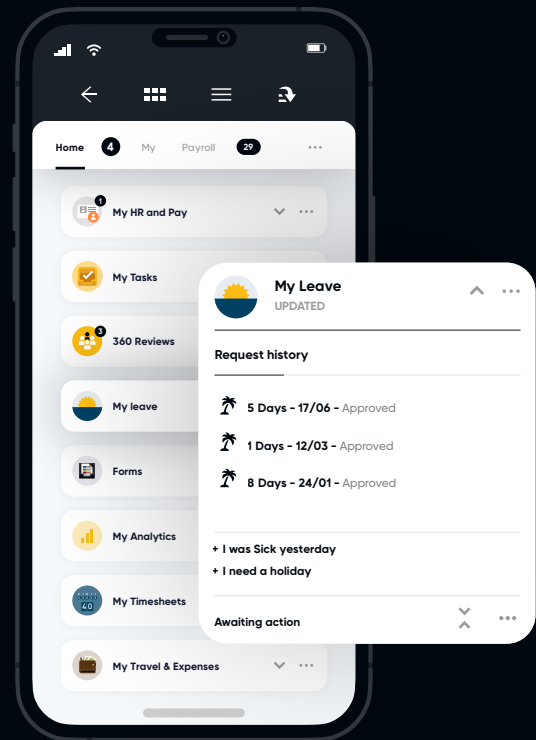

TechnologyOne is an industry-leader in cyber security, with the above security compliance certificates.

Our ~~code~~ no-code configuration

Tailor our solution for your specific needs with no programming or coding required.

Discover deep functionality for your organisation through an application that adapts to suit your unique needs. CiA is designed to seamlessly integrate with your systems to deliver an interconnected and unparalleled user experience.

Unleash streamlined functionality and cutting-edge efficiency for your organisation with faster time to value.

Real-time dashboards

Organisations must make strategic decisions to future-proof and give themselves a competitive edge.

Thrive in the face of challenges with dashboards that integrate and streamline real-time data to inform future spending and strategic decision-making.

Empower your organisation by improving efficiencies and eliminating manual and duplicated processes, reducing costs and empowering your staff to focus on your community.

SaaS+

With SaaS Plus TechnologyOne, delivers an end-to-end, customer centric solution so you can focus on serving your community.

Maximising our 'Power of One' promise, we're leveraging our unique domain expertise and taking full responsibility for the whole solution experience - reducing risk and saving you time and money.

One plan, one price, one point of call. SaaS Plus delivers:

- An all-inclusive offering tailored to the industries we serve.
- All aspects of TechnologyOne's enterprise solution.
- A single yearly fee covering all costs to implement, run, support and upgrade the solution.

Why SaaS Plus?

SaaS Plus is designed to help solve the three greatest impediments to digital transformation: time-to-value, cost, and complexity. It provides customers with a one-stop-shop, reducing much of the complexity, duplication and risk traditionally involved in ERP projects.

TechnologyOne takes complete responsibility for building, marketing, selling, implementing, supporting and running our enterprise solution for each customer, to guarantee long-term success.

SaaS Plus provides:

- Quantified scope, outcomes and approach
- Improved time-to-value – faster ROI
- Reduced project and organisational risk
- Platform for growth and business efficiency gains
- Accelerated path to a continuous improvement model

Our people

At TechnologyOne, we believe in fostering a culture of innovation, creativity, and collaboration, and have created an environment that allows our people to thrive. This culture is built into the fabric of our business, driving high performance, and underpinning our success.

Our global team of more than 1,300 passionate individuals forms the backbone of our operations. At the heart of our workforce are our more than 400 developers, powering one of the largest Australian-owned Research and Development (R&D)

centres for enterprise software. In addition to our R&D centres in Brisbane and Perth, we have offshore centres in Indonesia and Vietnam, extending our capabilities to better support our customers and products.

Our developers are leaders in their field who challenge conventional thinking and go beyond the traditional realms of development methodology.

Driven by a commitment to solving complex business problems for our customers, our team has delivered

a massively broad and deep global SaaS ERP solution, competing and triumphing against multinational giants with tens of thousands of staff.

Our customers are our true north guiding the decisions we make, the people we employ and the processes we create. We continue to invest in our Compelling Customer Experience program, which gives our people the ongoing training and support they need to deliver outstanding customer experiences.

About TechnologyOne

TechnologyOne is a global Software as a Service (SaaS) company. Founded in Australia, we have offices across six countries. Our enterprise SaaS solution transforms business and makes life simple for our customers by providing powerful, deeply integrated enterprise software that is incredibly easy to use. Over 1,300 leading corporations, government departments and statutory authorities are powered by our software.

Our global SaaS solution provides deep functionality for the markets we serve, including local government and higher education in the UK. For these markets we invest significant funds each year in R&D. We also take complete responsibility to market, sell, implement, support and run our solutions for our customers, which reduce time, cost and risk.
